Dear Enlisted Service Member:

The Central Maryland Chapter of the AFCEA offers a scholarship for enlisted service members who have started their education and need some assistance (above and beyond any assistance provided by Government Tuition Assistance) to complete their Bachelor’s degree.

AFCEA is a worldwide association for communications, electronics, information systems, and intelligence professionals. This is an on-going scholarship opportunity to enlisted service members of the Armed Forces working in the Fort Meade, Maryland, area (https://centralmd.afceachapters.org/military-scholarship-application). If you are working on your Bachelor’s degree and studying a Science, Technology, Engineering, or Math (STEM) curriculum that provides an education in engineering, math, computers, cyber, or IT – any major that addresses electrical engineering, computer engineering, computer science, information technology, cyber, mathematics, or physics – and can apply your studies directly to the Intelligence Community, then this scholarship may be one for which you qualify. (Enlisted service members who anticipate a degree in other science, such as pre-med, pre-law, biology, environmental, or any form of engineering that is not listed here, will not be considered for this scholarship.) This will be a STEM scholarship with a focus on cyber. Funds awarded for this scholarship may be used in the 2021-2022 school year (funds cannot be applied to courses taken before the scholarship is awarded).

Your application is due no later than March 1, 2021. We will notify recipients in mid-March, if they have been selected and invite them and a guest to an awards banquet on in May, 2021, to receive their scholarship.

Applicants must provide information about themselves, their career, their education, and their future goals. They must complete an on-line application and provide a resume, an essay, a transcript, and two letters of recommendation.

If you require any additional information on our scholarship program, please contact me at scholarships@centralmd.afceachapters.org or 410-215-8249.

Sincerely,

Jessica Morgenstern
